The family of 32 year-old Destiny Moore who died this weekend in an accident in Mexico is hoping her body comes home by Thursday.

Corliss Cornier Moore, who is Moore's step-mother, spoke to 12News Tuesday and confirmed that the Beaumont woman apparently fell off the second story balcony of the house she was staying at with a group of friends in Cancun, Mexico.

"We just wanna know for ourselves what happened. We are trying to get the answers," Moore's step-mother said, adding "She was bright she was beautiful she was loving and her smile can melt your heart. I know it did mine."

Moore left behind a six year-old son.

The family is setting up a [Go Fund Me page](#) to help with the \$4,500 cost of bringing Moore's body home which is due to having to deal with funeral homes on both sides of the border according to Moore's step-mother.

"She was our brightest star and we are going to miss her smile. We are working on getting her back," she said.

Amber Baca was friends with Moore for 7 years. The two shared a lot of great memories together and told 12News she was shocked to hear what had happened to Moore.

"It was very shocking and very devastating you know. Such a life taken so short like she did not deserve that." Said Baca.

Baca says their children would play outside together and will remember the good times they had together.

"She loved her son, Campton. That was her life and he was amazing and the cutest little boy ever and that was her world. We taught our kids how to ride bike." Baca said.
